PROFESSIONAL SUMMARY

Dedicated Information Technology undergraduate with a strong foundation in JavaScript, Python, Java, and web development. Experienced in developing academic projects, including a deepfake detection tool utilizing artificial intelligence and machine learning concepts. Passionate about AI-driven technologies, software development, and problem-solving, with proven leadership experience through student club initiatives.

EDUCATION

Institution & Degree	Year	Score
Bachelor of Technology (B.Tech) in Information Technology <i>Sir Chhotu Ram Institute Of Engineering and Technology</i>	2024–2028	CGPA: 7.98
Class XII <i>R.G. Inter College</i>	2024	Percentage: 72%
Class X <i>R.G. Inter College</i>	2022	Percentage: 80%

TECHNICAL SKILLS

Programming Languages	JavaScript · Python · Java (Learning OOP Concepts)
Frontend Development	HTML5 · CSS3 · JavaScript(ES6+) · Responsive Web Design · React · Next.js
AI / ML	Machine Learning Fundamentals · Deepfake Detection · Image Processing
Tools	Git · VS Code · Microsoft Word · Microsoft PowerPoint · PDF Editing Tools · Canva · Figma (Basic)
Soft Skills	Written & Verbal Communication · Leadership · Team Management · Event Coordination · Problem-Solving · Time Management · Adaptability · Critical Thinking · Visual Design Principles

WORK EXPERIENCE

Full Stack Developer Intern — <i>DecodeLabs</i>	Jun 2026 – Jul 2026
- Worked as a Full Stack Developer intern, contributing to both frontend and backend development of web applications. - Built and styled user-facing features using modern frontend technologies, ensuring responsive and functional interfaces. - Developed and integrated backend APIs and databases to support end-to-end application functionality. - Collaborated with the development team, gaining hands-on experience with the full software development lifecycle.	

PROJECTS

Deepfake Detection Tool — <i>Academic Project · Python · CNN · Machine Learning</i>	2026
- Developed a deepfake image detection system using Python and convolutional neural networks (CNN). - Trained the model using datasets containing real and manipulated images. - Improved understanding of machine learning and image processing concepts.	

POSITIONS OF RESPONSIBILITY

Secretary — *SCC (Student Conscious Club)*

- Coordinated club activities and events.
- Worked with team members for successful event management and communication.

Former Cultural Head — *SCC Club*

- Managed cultural activities and coordinated performances during college events.
- Contributed to planning and execution of student engagement activities.

CERTIFICATIONS

Python Workshop Certificate	SCC Cultural Head Certificate	AI in Healthcare — Code to Cure Certificate
-----------------------------	-------------------------------	---

ACTIVITIES

- Participated in technical workshops and academic events.
- Contributed to organizing college-level activities and student engagement programs through SCC.
- Participated in AI and technology-related learning initiatives.

INTERESTS

- Learning and applying artificial intelligence and machine learning techniques to solve real-world problems.
- Learning Java and object-oriented programming concepts to build scalable and efficient software applications.
- Creating responsive and interactive web applications using HTML, CSS, and JavaScript.
- Leadership, event coordination, and community engagement through student clubs.
